

4x4 USB 2.0 Data Switch

The 4x4 USB 2.0 Data Switch allows users to share 4 USB devices between 4 different computers. It is USB 2.0 compliant, supports data transfer rate up to 480Mbps and backwards compatible with USB 2.0 and USB1.1; avoiding the cost of purchasing duplicate peripherals or the hassle of swapping cables from one system to the others. Functions simple port selection via push button whether some of the 4 hosts be disconnected. The working memory (last channel setting) won't be terminated no matter the unit shutdown and restarted. (Default setting is switched to PC1 after powered on the unit; and then it will change to the last channel setting after restarting the unit.)

The switch can also be connected to a USB hub, to expand the number of devices you can share between the 4 connected systems, or to a USB drive enclosure or docking station, for a shared external storage solution.

Features

- USB 2.0 data transfer rates up to 480 Mbps
- Fully Compliant with USB specification 1.1, 2.0
- Enables 4 computers to share 4 USB 2.0 devices; Functions simple port selection via push button whether some of the 4 hosts be disconnected
- Supports memory function, the working memory won't be terminated no matter the unit shutdown and restarted.
- Easily wall mounting design (two hook holes and magnet attached)
- Compatible OS: Windows 98SE / ME / 2000 / XP / Vista / 7 / 8 / 8.1 / 10 / 11; Mac OS 8.6 or higher
- Plug-and-Play, no software or drivers required

Model No.	USB-DS44H	
Data Transfer Rate	1.5 / 12 / 480Mbps	
LED	4	
PC Selector	Push button	
USB Specification	USB 1.1 / 2.0 compliant	
Connector	Upstream	USB 2.0 B Female x 4
	Downstream	USB 2.0 A Female x 4
Power Supply	5VDC 2A	
Extension Cable Length	Input	Max. 2m
	Output	Max. 2m
Environmental	Operating Temperature	0–40°C
	Storage Temperature	-20–60°C
	Humidity	0–80% RH, Non-condensing
Housing	Plastic	
Dimension (L x W x H)	106 x 56 x 25 mm
